PROFESSIONAL PROFILE

Council of Architecture (COA) registered Architect and Lead BIM professional with 18+ years of diversified experience spanning concept design through construction. Proven track record delivering large-scale international projects across the Middle East, Europe, UK, and USA. Expert in BIM implementation, interdisciplinary coordination, QA/QC automation, and ISO 19650-compliant CDE workflows. Skilled in leveraging Python/PyRevit automation to eliminate repetitive tasks and enforce model quality at scale.

CORE BIM SKILLS & SOFTWARE

Revit (Expert) • AutoCAD • SketchUp • Navisworks Manage • Bluebeam Revu • PyRevit • Ideate Automation • RTV Tools • OpenSpace (Real View Site) • CM Builder 4D & Construction Management • Autodesk Construction Cloud (ACC) • ISO 19650 • Common Data Environments (CDE)

BIM QA/QC

- ▶ Automated Model Audit (Python/PyRevit) — Scripts for clash detection, parameter validation & compliance checks
- ▶ Revit QA Checklist — Standardized QA checklists for model integrity, naming conventions & LOD compliance
- ▶ Drawing & Documentation Quality — Sheet audits, annotation standards & print-ready verification workflows
- ▶ BIM Coordination & ACC Workflow Management — Autodesk Construction Cloud issue tracking, model coordination & design review
- ▶ Interdisciplinary Coordination — Cross-discipline clash management with Arch, Struct, MEP & Landscape teams
- ▶ ACC (Autodesk Construction Cloud) & Issue Resolution — End-to-end issue lifecycle management
- ▶ Self QA (Manual) Checklist: Coordination & ACC QA — Pre-submission quality gates
- ▶ Mistakes Learned & Knowledge Sharing — Lessons-learned documentation & team knowledge transfer sessions
